### ■ Remarks (Structure Requirement)

\* Secure fixings to the overhead roof structure are required. It may be necessary for additional steel work to be incorporated during the construction of the building or alternatively we can arrange to supply and fit additional supporting steel work ourselves at the same time as the main installation is undertaken.

\* The general constructor will be required to supply and all overhead steelwork to our specifications. All loadings to be approved by structure engineer.

\* All wall fixings to be drawn upon the assumption that the walls are of a load base material unless otherwise informed.

\* All fixings to be verified completion.
